

Introducing

Integrated Horticulture Promotion Project

Research and Development Center, Bajo

Ngawang, Program Director

4 Feb 2016, Taj Tashi, Thimphu

Project Goal & Purpose

Horticulture
production is
expanded with
appropriate
technologies in
the target areas

Develop
implementatio
n system for
promotion of
horticulture

January 2016

December 2020

Project Outputs

1) Develop appropriate technologies for promoting horticulture farming

OP-1

2) Strengthen fruits/vegetable seeds/seedlings production system at RDC-Bajo, NSC-Bajo, private nurseries

OP-2

3) Strengthen training and extension system (Outreach Programs) for promoting horticulture farming

OP-3

Activities of Output-1

Develop appropriate technologies for promoting horticulture farming

Develop farm field facilities of RDC-Bajo and Mithun sub-center in Tsirang

Introduce and identify suitable cultivars for horticulture farming in the target areas

Develop horticulture production management practices

Develop/improve appropriate extension materials

Activities of Output-2

**Strengthen
vegetable
seeds and
fruits
seedlings
production
system**

Develop appropriate technologies for production of quality seeds and seedlings at RDC-Bajo

Identify private nurseries and seed growers & provide training for quality seeds/seedlings

Monitor private nurseries & seed growers for quality seeds/seedlings production

Provide technical support for quality seeds/Seedlings production in NSC-Bajo

Activities of Output-3

Strengthen training and extension system (Outreach Programs) for horticulture promotion

Formulate/modify outreach program in collaboration with RDC-Wengkhar

Provide technical support for farm development at ADTC-Chimipang

Provide capacity development programs for researchers and extension officers

Provide training for farmers to establish demonstration farms in focus villages as well as to encourage vegetable farmers

Monitor and support extension activities by extension officers and farm owners

Project coverage

Project input

Expertise

- 1) Chief Advisor/Horticulture
- 2) Horticulture-2/Pest & Diseases
- 3) Coordinator/Training

Farm machinery

Excavator, vehicles, farm equipment, water pumps, agriculture machinery and farm equipment for RDC Bajo

Capacity development

Training of Researchers, Extension Officers and Farmers (In-country and Ex-country)

Infrastructure development

Land development and nursery establishment at RDC Bajo & RDSC Tsirang

Orchard establishment & improvement

Orchards establishment through Outreach Programs & orchards improvement

Collaborative support

Technical supports

Two Gewogs (Khatoed and Khamaed) of Gasa Dzongkhag

Agriculture Demonstration and Training Center (ADTC) at Chimipang

National Seed Center of Bajo for seeds and seedlings nursery establishment

**Kadenchey
&
Arigato**
